 PERC Morning Report Software  
 RIGREPORT Morning Report Software

• **Simple Interface**

Training and usage of the system are incredibly easy due to our proprietary interface.

• **Tour Sheet Daily Report**

Data is input into a form that looks just like a standard tour sheet report.

• **Reports and Plots**

Over 30 canned reports and plots are built in as a part of the system, including a detailed analysis of downtime, daily drilling reports, cost reports, as well as many others.

• **Payroll Upload**

You can create an upload into your company's payroll system, eliminating handling.

• **Incident Reporting**

Rigsite accidents can easily be tracked via RIGREPORT.

• **24 Hour Technical Support**

Epoch Support is on call 24/7/365 to respond to problems or answer questions.

RIGREPORT™ is an IADC approved and recognized product.

# RIGREPORT™ MORNING REPORT SOFTWARE

“Designed with the Contractor in Mind...”

RIGREPORT is Epoch's Electronic tour sheet and daily drilling report system that has been designed exclusively for the drilling contractor, including advanced communications, IADC type morning report generation and graphics features. The ultimate goal is to save time for everyone involved with rig paperwork; the time involved reentering duplicated data will be eliminated.

Better tracking of operational information, equipment reports (such as engine hours and pump hours), time sheets, and personnel reports (such as safety programs and accident reports) and other reports will be generated from the RIGREPORT system. By tracking operating information for each offshore rig, RIGREPORT will allow company management to look more closely at what each rig does well and what it could do better. One of the biggest advantages is the readily availability of information to identify rigs with experienced crews particular to areas where they plan to drill.

For additional information on RIGREPORT, please contact an Epoch Representative.
